MINT-X LDPE HEAVY DUTY TRASH BAGS

The sanitation problems caused by disease carrying rodents (mice, rats, possums) have had homeowners, local government officials, and commercial property owners all seeking a viable, sustainable and cost effective solution.

None was available - until now! Made from 100% natural food grade oils Mint-X Trash Bags are infused with a proprietary mint formula that is proven to deter rats and other rodents from gnawing on bagged trash.

Eliminating rodent penetration means that the trash remains in the bag and not on the floor, ground or street. Therefore sanitary conditions are maintained and there is no additional mess for maintenance staff to clean.

- Benefits**
- Deters rats and other rodents from chewing through garbage bags
 - Safe for pets and humans
 - Improves overall pest management
 - Chemical free
